Notes and Sources

"NSD" or "Not Sufficient Data" where the figure does not meet the standard of reliability. White and Black categories are non-Hispanic for AIDS Case Rate, Poverty, Medicaid, and Uninsured. "Other" includes American Indian, Alaska Native, Asian and Pacific Islander race groups. Medicaid and Uninsured rates are non-elderly population; AIDS case rate is adult and adolescent populations.

*Infant Mortality Rates (2001-2003), Diabetes Mortality Rates (2003), AIDS Case Rates (2005): The Centers for Disease Control and Prevention, National Center for Health Statistics. Poverty (2004-2005), Medicaid (2004-2005), Uninsured (2004-2005) Rates: KCMU and Urban Institute analysis of the Current Population Survey, March 2005 and 2006.

Visit Kaiser's statehealthfacts.org website for more health and health care topics available by race/ethnicity for all 50 states, Washington DC and the United States.

Other topics include: **Teen Births, Preterm Births, Prenatal Care, Child Immunizations, All-Cause Mortality, Cancer Incidence, Cancer-Related Mortality, Heart Disease-Related Mortality, Stroke-Related Mortality, Firearms-Related Mortality, Smoking Rates, Obesity, Mental Health, and more.**
