Medical Errors: Practicing Physician and Public Views

Methodology

The Harvard School of Public Health and Henry J. Kaiser Family Foundation's *Medical Errors: Practicing Physician and Public Views* is based on two surveys, one of physicians and one of the public, both designed and analyzed by a team of researchers from Harvard School of Public Health and the Kaiser Family Foundation.

Physician Survey

The fieldwork for the survey of physicians was conducted April 24-July 22, 2002 by mail or online with 831 physicians by Harris Interactive, Inc. The sample was drawn from the national list of physicians provided by Medical Marketing Service, Inc. This list includes both American Medical Association members and non-members and is updated weekly. The margin of sampling error was +/-3.5 percentage points.

General Public Sample

The fieldwork for the survey of the public was conducted by telephone April 11- June 11, 2002 with a nationally representative sample of 1,207 adults 18 years and older. The survey was conducted in Spanish and English by ICR/International Communications Research. The margin of sampling error was +/-2.6 percentage points.

Please note that for both surveys sampling error may be larger for other subgroups and that sampling error is only one of many potential sources of error in these or any other public opinion poll.

Please note, table percentages may not add to 100% due to rounding. Values less than 0.5% are indicated by an asterisk (*).

Copies of the survey toplines, the chartpack based on these results, and New England Journal of Medicine article based on these findings are available online at www.kff.org or by calling the Foundation's publications request line at 1-800-656-4533 (publication #3303).

SURVEY OF THE GENERAL PUBLIC

*Note: A * following a question number indicates that there is a corresponding question in the physicians survey.*

- 1. Would you say you are very satisfied, somewhat satisfied, somewhat dissatisfied, or very dissatisfied with the health care system in the U.S.?**

	SATISFIED			DISSATISFIED			Don't know

1c. How familiar are you with the term “medical error”? Do you know what this term means; have you heard of it, but are not sure what it means; or have you never heard of the term “medical error” before?

	Know what term means	Heard of it, but not sure what term means	Never heard of term before	Don't know
Total	31	28	40	*

Sometimes when people are ill and receive medical care, mistakes are made that result in serious harm, such as death, disability, or additional or prolonged treatment. These are called medical errors. Some of these errors are preventable, while others may not be.

I'd like to ask some questions about preventable medical errors that result in serious harm. If for any of these questions, you feel you haven't heard enough to have an opinion, just say so.

2.* When people seek help from a health professional, how often do you think such preventable medical errors are made in their care? Would you say very often, somewhat often, not very often, or not often at all?

	VERY/SOMEWHAT			NOT VERY/NOT AT ALL			Don't Know
	Net	Very	Somewhat	Net	Not very	Not often at all	
Total	49	10	39	45	37	8	6

3.* Which of the following do you think is the MORE important cause of preventable medical errors that result in serious harm?

	Mistakes made by individual health professionals	Mistakes made by institutions where they work	Don't know
Total	55	38	7

4.* About how many Americans do you think die in hospitals each year as a result of a preventable medical error? (INTERVIEWER NOTE: Just your best guess)

	500	5,000	50,000	100,000	500,000 +	Don't know
Total	24	36	20	7	4	9

5.* Realistically, about how many of these deaths do you think could have been prevented? (INTERVIEWER NOTE: Just your best guess)

	All of them	Three-quarters of them	Half of them	One-quarter of them	None of them	Don't know
Total	11	29	42	13	1	3

6.* Thinking about preventable medical errors that result in serious harm, how often do you think patients are at least partially responsible for preventable medical errors made in their care? Would you say very often, somewhat often, not very often, or never?

	VERY/SOMEWHAT			NOT VERY/NEVER			Don't Know
	Net	Very	Somewhat	Net	Not very	Never	
Total	59	11	48	39	35	5	1

- 6a. Is what you know about preventable medical errors based mainly on your own experience, on experiences of your friends and family, or on what you have seen, heard, or read on television, on the radio, or in newspapers?

	Own experience	Experiences of your friends and family	Television, radio, newspapers	Don't know
Total	17	28	53	2

- 7.* I'm going to read you a list of some things that could **CAUSE** preventable medical errors that result in serious harm to the patient. For each one, please indicate whether you think it is a very important cause, somewhat important, not very important, or not important at all as a cause of these medical errors. If for any of these, you feel you haven't heard enough to have an opinion, just say so. Do you think (READ FIRST ITEM) is a very important cause, somewhat important, not very important, or not important at all?

- a. Poor training of health professionals

Total	93	74	19	5	3	1	3

9.* Should hospital reports of serious medical errors be confidential and only used to learn how to prevent future mistakes or should they also be released to the public?

	Confidential (to be used to learn how to prevent future errors of this type)	Released to the public	Don't know
Total	34	62	4

10.* Should physicians be required to tell patients if a preventable medical error resulting in serious harm is made in their care, or not?

	Yes	No	Don't know
Total	89	9	3

11.* Suppose a patient needs a specialized medical procedure. This person can choose either a hospital that does a large number of these procedures, or a hospital that does not do as many. At which hospital do you think this patient would be more likely to have a preventable medical error made in their care, or wouldn't it make much difference?

	Error more likely at hospital that does a large number of the procedures	Error more likely at hospital that does not do as many	Wouldn't make much difference	Don't know
Total	23	49	26	3

Now, I am going to tell you about a medical case and get your opinion about it.

VIGNETTE 1A – MEDICATION – GOOD OUTCOME

Asked of one half sample; n=603

11a.* A 67 year-old man goes to a hospital for surgery. He has an antibiotic drug allergy noted on his medical record. The surgeon does not notice the allergy and orders that antibiotic to be given at the end of surgery. A hospital nurse gives the patient the antibiotic. The patient wakes up with a rash all over. The mistake is noticed, the antibiotic is stopped, and the patient fully recovers.

VIGNETTE 1B – MEDICATION – BAD OUTCOME

Asked of one half sample; n=604

11b.* A 67 year-old man goes to a hospital for surgery. He has an antibiotic drug allergy noted on his medical record. The surgeon does not notice the allergy and orders that antibiotic to be given at the end of surgery. A hospital nurse gives the patient the antibiotic. The patient wakes up with a rash all over and gasping for air. The mistake is noticed and the antibiotic is stopped, but the patient stops breathing. Despite every effort, the patient dies.

12.* How much responsibility, if any, do you think (READ FIRST ITEM) has for this error? A lot, a little, or none?

Either Outcome

	RESPONSIBLE			None	Don't know
	Net	A lot	A little		
a. The surgeon	98	91	7	1	*

SURVEY OF PHYSICIANS

1. Thinking about everything that has to do with health care and medicine, what do you think are the two main problems facing health care and medicine in the United States today?

a. Cost of healthcare (general)	27
b. Cost of medication/ prescriptions	13
c. Malpractice insurance costs/rates malpractice suits	29
d. Uninsured/underinsured/inadequate funding for uninsured	16
e. Access to/availability of medical care	19
f. Too much bureaucracy/paperwork/too little time with patients	8
g. Unreimbursed care/declining reimbursements	14
h. Managed care/ HMOs	11
i. Problems with insurance companies	22
j. Nursing shortage	4
k. Medical errors/ Poor education of doc./ quality of candidates/ patient safety	5
l. Lack of prevention focus: insufficient coverage for prevention	3
m. System inefficient/ too much end of life care	1
n. No evidence-based medicine/changing guidelines	1
o. Aging population	2
p. Unrealistic expectations of patients to healthcare entitlements	2
q. Physician shortages/lack of physicians	1
r. For-profit healthcare companies	2
s. Other	11
t. No Answer	-

DEFINITION OF MEDICAL ERRORS

Sometimes when people are ill and receive medical care, mistakes are made that result in serious harm, such as death, disability, or additional or prolonged treatment. These are called medical errors. Some of these errors are preventable, while others may not be. The following questions are about preventable medical errors that result in serious harm.

2. When people seek help from a health professional, how often do you think such preventable medical errors are made in their care?

1 Very often **19** Somewhat often **59** Not very often **21** Not often at all - No answer

3. Which of the following do you think is the MORE important cause of preventable medical errors that result in serious harm? (Check one only.)

- 55** Mistakes made by individual health professionals
- 43** Mistakes made by institutions where they work
- No answer

4. About how many Americans, do you think, die in hospitals each year as a result of a preventable medical error? (Please provide your best estimate.)

17 500 **46** 5,000 **25** 50,000 **9** 100,000 **1** 500,000 or more **1** No answer

5. Realistically, about how many of these deaths do you think could have been prevented?

8 All of them **27** Three-quarters of them **41** Half of them **21** One-quarter of them **2** None of them **1** No answer

6. Thinking about preventable medical errors that result in serious harm, how often do you think patients are at least partially responsible for preventable medical errors made in their care?

10 Very often **48** Somewhat often **41** Not very often **1** Never - No answer

7. Following is a list of some things that could CAUSE preventable medical errors that result in serious harm to the patient. For each one, please indicate how important you think it is as a cause of these preventable medical errors.

	<u>Very Important</u> (1)	<u>Somewhat Important</u> (2)	<u>Not Very Important</u> (3)	<u>Not At All Important</u> (4)	<u>No Answer</u>
a) Poor training of health professionals	28	38	28	5	-
b) Overwork, stress, or fatigue of health professionals	50	41	8	1	-
c) Not enough nurses in hospitals	53	39	7	1	-
d) Uncaring health professionals	15	22	43	20	-
e) Poor supervision of health professionals	16	42	36	6	-
f) Health professionals not working together or not communicating as a team	39	49	10	1	-
g) Doctors not having enough time with patients	37	46	16	1	-
h) Poor handwriting by health professionals	21	45	31	4	-
i) Medical care being very complicated	38	43	16	3	-
j) The influence of HMOs and other managed care plans on treatment decisions	39	39	20	2	-
k) Lack of computerized medical records	13	32	41	14	-

- 8. Following is a list of some possible SOLUTIONS that have been proposed to prevent medical errors that result in serious harm. Please indicate how effective you think each one would be in reducing preventable medical errors.**

	<u>Very Effective</u> (1)	<u>Somewhat Effective</u> (2)	<u>Not Very Effective</u> (3)	<u>Not At All Effective</u> (4)	<u>No Answer</u>
a) Better training of health professionals	36	46	15	3	*
b) Increasing the number of hospital nurses	51	42	6	1	1
c) Reducing the work hours of doctors in training to avoid fatigue	33	46	19	2	1
d) Using only doctors specially trained in intensive care medicine on intensive care units	34	45	18	3	*
e) Including a pharmacist on hospital rounds when physicians review the progress of patients	20	43	30	7	*
f) Giving doctors more time to spend with patients	46	41	12	1	-
g) More use of computerized medical records	19	45	29	7	*
h) More use of computers instead of paper records for ordering of drugs and medical tests	23	44	27	6	*
i) Limiting certain high-risk medical procedures to hospitals that do a lot of these procedures	40	46	13	2	*
j) Requiring hospitals to report all serious medical errors to a state agency	23	36	31	10	*
k) Encouraging hospitals to voluntarily report serious medical errors to a state agency	21	34	34	11	*
l) Having hospitalized patients be taken care of by hospital doctors rather than their regular doctors	6	30	43	21	1
m) More lawsuits for malpractice	1	4	26	69	*
n) Having a government agency fine health professionals who make medical errors	2	10	33	56	*
o) Suspending the licenses of health professionals who make medical errors	3	15	43	39	*
p) Requiring hospitals to develop systems to avoid medical errors	55	36	7	2	-

9. Should hospital reports of serious medical errors be confidential and only used to learn how to prevent future mistakes or should they also be released to the public?

- 86** Confidential (only used to learn how to prevent future mistakes)
- 14** Also released to the public
- No answer

10. Should physicians be required to tell patients if a preventable medical error resulting in serious harm is made in their care, or not?

- 77** Yes
- 22** No
- No answer

11. Suppose a patient needs a specialized medical procedure. This person can choose either a hospital that does a large number of these procedures or a hospital that does not do as many. At which hospital do you think this patient would be more likely to have a preventable medical error made in their care, or wouldn't it make much difference?

- 4** Error more likely at hospital that does a large number of the procedures
- 71** Error more likely at hospital that does not do as many
- 24** Wouldn't make much difference
- No answer

MEDICAL CASE - NEGATIVE OUTCOME

Now, we'd like to ask your opinion about the following medical case:

A 67 year old man goes to a hospital for surgery. He has an antibiotic drug allergy noted on his medical record. The surgeon does not notice the allergy and orders the antibiotic to be given at the end of surgery. A hospital nurse gives the patient the antibiotic. The patient wakes up with a rash all over and gasping for air. The mistake is noticed and the antibiotic is stopped, but the patient stops breathing. Despite every effort, the patient dies.

MEDICAL CASE - POSITIVE OUTCOME

Now, we'd like to ask your opinion about the following medical case:

A 67 year old man goes to a hospital for surgery. He has an antibiotic drug allergy noted on his medical record. The surgeon does not notice the allergy and orders the antibiotic to be given at the end of surgery. A hospital nurse gives the patient the antibiotic. The patient wakes up with a rash all over. The mistake is noticed, the antibiotic is stopped, and the patient fully recovers.

12. How much responsibility, if any, do you think each of the following has for this error?

Either Outcome

	<u>A Lot</u> (1)	<u>A Little</u> (2)	<u>None</u> (3)	<u>No Answer</u>
a. The surgeon	93	7	1	-
b. The nurse	81	17	1	-
c. The patient	6	20	73	-
d. The hospital	45	38	17	-

Good Outcome; n=405

	<u>A Lot</u> (1)	<u>A Little</u> (2)	<u>None</u> (3)	<u>No Answer</u>
a. The surgeon	90	9	1	-
b. The nurse	81	19	1	-
c. The patient	6	24	71	-
d. The hospital	42	37	22	-

Bad Outcome; n=426

	<u>A Lot</u> (1)	<u>A Little</u> (2)	<u>None</u> (3)	<u>No Answer</u>
a. The surgeon	95	4	1	-
b. The nurse	82	16	2	-
c. The patient	7	16	76	-
d. The hospital	48	38	14	-

Answered Q13 and Q14 if thought the SURGEON or NURSE has a lot or a little responsibility for the error.

13. Do you think the surgeon should...?

14. Do you think the nurse should...?

Either Outcome

	Q13 Surgeon			Q14 Nurse		
	<u>Yes</u> (1)	<u>No</u> (2)	No <u>Answer</u>	<u>Yes</u> (1)	<u>No</u> (2)	No <u>Answer</u>
a) Be sued for malpractice	30	70	*	25	75	-
b) Be fined by a government agency	13	87	*	12	88	-
c) Have his or her license suspended	5	95	*	5	95	-
d) Be required to report the error to the patient's family	88	12	*	73	27	-
e) Be required to get further education about this type of medical error	72	28	*	77	23	-

Good Outcome; Surgeon n=403, Nurse n=403

	Q13 Surgeon			Q14 Nurse		
	<u>Yes</u> (1)	<u>No</u> (2)	No <u>Answer</u>	<u>Yes</u> (1)	<u>No</u> (2)	No <u>Answer</u>
a) Be sued for malpractice	4	96	*	3	97	-
b) Be fined by a government agency	5	95	*	6	94	-
c) Have his or her license suspended	1	99	*	1	99	-
d) Be required to report the error to the patient's family	85	14	*	75	25	-
e) Be required to get further education about this type of medical error	66	34	*	71	29	-

Bad Outcome; Surgeon n=424, Nurse n=417

	Q13 Surgeon			Q14 Nurse		
	<u>Yes</u> (1)	<u>No</u> (2)	No <u>Answer</u>	<u>Yes</u> (1)	<u>No</u> (2)	No <u>Answer</u>
a) Be sued for malpractice	55	45	*	45	55	-
b) Be fined by a government agency	21	79	*	19	82	-
c) Have his or her license suspended	8	92	*	8	92	-
d) Be required to report the error to the patient's family	90	10	*	71	29	-
e) Be required to get further education about this type of medical error	78	22	*	83	18	-

Answered Q15 if thought the HOSPITAL has a lot or a little responsibility for the error.

15. Do you think this hospital should...?

Either Outcome

	<u>Yes</u> (1)	<u>No</u> (2)	<u>No</u> <u>Answer</u>
a) Be sued for malpractice	22	78	*
b) Be fined by a government agency	18	82	*
c) Lose its accreditation	1	99	*
d) Be required to report the error to the patient's family	79	21	*
e) Be required to develop systems to avoid similar errors in the future	96	4	*

Good Outcome; n=318

	<u>Yes</u> (1)	<u>No</u> (2)	<u>No</u> <u>Answer</u>
a) Be sued for malpractice	22	78	*
b) Be fined by a government agency	18	82	*
c) Lose its accreditation	1	99	*
d) Be required to report the error to the patient's family	79	21	*
e) Be required to develop systems to avoid similar errors in the future	96	4	*

Bad Outcome; n=368

	<u>Yes</u> (1)	<u>No</u> (2)	<u>No</u> <u>Answer</u>
a) Be sued for malpractice	38	62	*
b) Be fined by a government agency	24	76	*
c) Lose its accreditation	1	98	*
d) Be required to report the error to the patient's family	82	18	*
e) Be required to develop systems to avoid similar errors in the future	97	3	*

YOUR OWN OR YOUR FAMILY MEDICAL CARE

16. Have you ever been personally involved in a situation where a preventable medical error was made in YOUR OWN medical care or that of a FAMILY member?

35 Yes

65 No

- No answer

Answered Q16a to Q20 if a preventable medical error was made in OWN medical care OR that of a FAMILY member.

16a. Was the error made in your own care, your family member's care, or both?

17	a) Own care
70	b) Family member's care
13	c) Both
1	No answer

Please answer the next several questions thinking about the error that occurred most recently.

17. Did the error result in...?

50 a) Serious health consequences

27 b) Minor health consequences

22 c) No health consequences at all

1 No answer

Answered Q17a if a preventable medical error resulted in serious health consequences

Q17a. Did these serious health consequences include any of the following?	<u>Yes</u> (1)	<u>No</u> (2)	No <u>Answer</u>
a) Severe pain	58	42	-
b) Significant loss of time at work, school, or other important life activities	68	33	-
c) Temporary disability	46	54	-
d) Long-term disability	31	69	-
e) Death	38	62	-

16/17/17a Combination Table

Experience with Medical Errors	35
Serious Health Consequences	18
Severe Pain	11
Significant loss of work/school/life activity	12
Temporary disability	8
Long Term disability	6
Death	7
Minor health consequences	10
No Health Consequences	7
Not involved in preventable medical error situation	65

18. How much responsibility, if any, do you think each of the following had for this medical error?

	<u>A Lot</u> (1)	<u>A Little</u> (2)	<u>None</u> (3)	<u>No Answer</u>
a. The doctors involved	70	19	10	1
b. The nurses involved	25	27	46	3
c. Other health professionals	15	22	60	3
d. The institutions involved, such as a hospital, clinic, or nursing home facility	22	26	50	2

19. Did you or your family member sue the health care professional for malpractice, or not?

2 Yes **97** No **1** No answer

20. Did the doctor or the health professionals involved ...

- a. Tell you that a medical error had been made in your or your family member's treatment? **31** Yes **68** No **2** No answer
- b. Apologize to you or your family member for the medical error that was made? **34** Yes **64** No **2** No answer

EXPERIENCE IN YOUR ROLE AS A PHYSICIAN

21. Are any of the hospitals in which you practice or to which your patients are admitted, a major teaching hospital or academic health center?

48 Yes

51 No

1 No Answer

22. During the past year, in your role as a physician, have you seen a medical error that resulted in serious harm to a patient?

29 Yes

71 No

* No answer

Answered Q23-Q24 if in ROLE as a physician, respondent saw a medical error that resulted in serious harm to a patient.

23. Thinking about the last time you saw such a medical error that resulted in serious harm, how much responsibility, if any, do you think each of the following had for that error?

	<u>A Lot</u> (1)	<u>A Little</u> (2)	<u>None</u> (3)	<u>No Answer</u>
a. Doctors involved in the patient's care	73	20	7	1
b. Nurses involved in the patient's care	42	32	26	*
c. Other health professionals	23	30	45	2
d. The institutions involved, such as a hospital, clinic, or nursing home facility	35	32	32	1

24. Thinking about the institution where this medical error occurred, how likely do you think it is that another error like this one will happen during the next year?

15 Very likely

45 Somewhat likely

31 Not very likely

9 Not at all likely

- No answer

DEMOGRAPHIC INFORMATION

25. Which of the following best describes your race or ethnic background?

74 White Non-Hispanic **3** Black Non-Hispanic **3** Hispanic **17** Asian **3** Other **1** No answer

26. Approximately how many beds are in the hospital in which you practice or to which the majority of your patients are admitted?

15 0-100 **25** 101-250 **24** 251-350 **20** 351-500 **14** 501 and above **2** No answer

27. Approximately how many hours do you spend in outpatient care per week?

7 0-5 **4** 6-10 **6** 11-15 **13** 16-20 **17** 21-30 **22** 31-39 **30** 40 and above **2** No answer

28. Approximately how many hours do you spend in inpatient care per week?

36 0-5 **17** 6-10 **12** 11-15 **10** 16-20 **10** 21-30 **4** 31-39 **10** 40 and above - No answer

29. Have you ever been named in a malpractice suit?

48 Yes **52** No - No answer
