USA Today/Kaiser Family Foundation/Harvard School of Public Health

The Public on Prescription Drugs and Pharmaceutical Companies

Methodology

The *USA Today*/Kaiser Family Foundation/Harvard School of Public Health Survey Project is a three-way partnership. *USA Today*, Kaiser, and the Harvard School of Public Health jointly design and analyze surveys examining health care issues.

Representatives of *USA Today*, The Henry J. Kaiser Family Foundation, and the Harvard School of Public Health worked together to develop the survey questionnaire and analyze the results. *USA Today* retains editorial control over the content published by the paper. The project team included Jim Norman, USA Today polling editor; Drew E. Altman, president of the Kaiser Family Foundation, Mollyann Brodie, vice president and director of public opinion and media research, and Liz Hamel, associate director of public opinion and media research; and Robert J. Blendon, professor of health policy and political analysis at the Harvard School of Public Health and the John F. Kennedy School of Government, and John M. Benson, managing director of the Harvard Opinion Research Program in the Harvard School of Public Health.

The Public on Prescription Drugs and Pharmaceutical Companies is a nationally representative, random sample survey of 1,695 adults ages 18 years and older. The survey was conducted by telephone from January 3-23, 2008. Telephone interviews were carried out in English and Spanish by ICR/International Communications Research of Media, PA.

The margin of sampling error for the survey is plus or minus 3 percentage points for total respondents. For results based on smaller subsets of respondents the margin of sampling error is higher. Sampling error is only one of many potential sources of error in this or any other public opinion poll.

Values less than 0.5% are indicated by an asterisk (*). "Vol." indicates that a response was volunteered by respondent, not an explicitly offered choice. Percentages may not always add up to 100% due to rounding.

(SCRAMBLE)

1. I am going to read you a list of companies and groups. For each one please tell me if you have a favorable or an unfavorable opinion of each. How about (INSERT)? Do you have a favorable or an unfavorable opinion?

(GET ANSWER THEN ASK: Is that very or somewhat?)

Items a, b, and f based on one half of total (N = 846)

Items c, d, and e based on one half of total (N = 849)

Item g based on total

	Very	Somewhat	Somewhat	Very	Don't	
	favorable	favorable	unfavorable	unfavorable	know	Refused
a. Oil companies	9	20	17	46	7	1
b. Food manufacturers	24	47	12	8	7	1
c. Airlines	21	40	15	8	14	1
d. Banks	27	42	16	7	5	2
e. Health insurances companies	13	27	25	29	5	1
f. Doctors	44	37	8	7	3	1
g. Pharmaceutical or drug companies	15	32	21	23	7	1

2. Earlier you said you have an unfavorable opinion of pharmaceutical companies. Could you tell me in your own words what is the MAIN reason you have an unfavorable opinion of pharmaceutical companies?

Based on total who have an unfavorable opinion of pharmaceutical or drug companies (N = 794)

- **68** PRICING/PROFITS RELATED (NET)
- They charge too much/prices are overly inflated/outrageous/unfair/unaffordable/are price gouging
- **2** U.S. citizens (unfairly) pays more for drugs than other countries
- 1 They manipulate/push/control/fix prices of drugs for their own best interest/profit
- 2 Making large profits is more important than putting money into research (making safe drugs, new drugs/cures, etc.)
- Greedy profit-driven companies/their best interest/profits more than working in the best interest of the people (general, overall)
- **3** Relationship of high/inflated cost of drugs leading to enormous profit margins/high profits more important than charqing patients reasonable costs
- 1 They pass research costs/unrealistic research costs onto customers
- * Other pricing/profits related mentions
- **7** ADVERTISING/MARKETING (NET)
- Relationship of high/inflated cost of drugs due to companies pushing their products (wining and dining doctors/consumer advertising)
- 4 They advertise/don't think they should be allowed to advertise directly to consumers
- **1** They wine and dine doctors/push their products through doctors
- Other advertising/marketing mentions
- 2 ENCOURAGING OVERUSE/INAPPROPRIATE USE OF DRUGS (NET)
- They make too many drugs/drugs that aren't necessary/getting society to believe they need/take more drugs than they need
- **1** They push/over push their products (general)
- -- Other drug pushing (general) mentions
- **6** SAFETY CONCERNS (NET)
- 1 Push (unsafe) drugs through too fast/through FDA/not adequately tested
- 3 They make drugs that are bad for you/have side effects/can kill you
- * Drug dispensing/administering errors (given wrong drug, taken in wrong doses, etc.)
- **1** Other safety concern mentions
- **5** POWER/CONTROL ISSUES (NET)
- They lobby government for their own interests/their bottom line/have government/ congress/FDA in their pockets/use expensive lobbyists
- **1** They manipulate/control the availability of drugs (for their best interests)
- **1** They manipulate/control generic drugs/patents
- Have too much control on how medicine is practiced/controlling decisions of doctors/ patients
- **1** They are a monopoly
- **1** Other power/control issues mentions
- **2** Don't look out for patient's best interest/don't trust them (general)
- 2 Past company misdeeds/companies have lied/corruption scandals
- The lack of information/education provided on the drugs
- **1** Don't believe in/use any drugs (prefer natural treatments, etc.)
- **1** Availability issues/problems due to pharmacy/insurance/mail order issues (long waits, approval issues, etc.)
- **1** Other
- 2 No reason
- 1 Don't know
- -- Refused

3. Earlier you said you have a favorable opinion of pharmaceutical companies. Could you tell me in your own words what is the MAIN reason you have a favorable opinion of pharmaceutical companies?

Based on total who have a favorable opinion of pharmaceutical or drug companies (N = 781)

- **64** PROVIDES IMPORTANT DRUGS (NET)
- They provide medicines we need/that help people/me/my family (help people get well, cure people, saves/extends lives)
- The research they have done/are doing/continue to invest/make advances for new drugs coming out with better benefits
- 4 Provides good quality medicines/medicines work/work well, no problems with my medicines
- Provides safe products/products go through testing/approved by FDA
- **4** Medicines are always readily/quickly available/reliable supply
- **1** Provide/offer generic drug choices
- * Other provides important drug mentions
- 3 AFFORDABILITY (NET)
- 2 Trying to keep drugs reasonably priced/some are reasonably priced/justifiably priced
- 1 Have good insurance plan so prescriptions are (usually) affordable/good price
- * Other affordability mentions
- 3 Programs to help those that can't afford the drugs
- 2 They give me good service/treat me well
- 2 Have had no problems/bad experiences with drug companies
- **4** They are doing a good job/beneficial for everyone/provide importance to society/doing a lot to help people (general, unspecified)
- 1 Invest in/own stock in pharmaceutical companies
- **1** Big part of/helpful to the economy (supplies jobs, etc.)
- 3 Self/family member works/used to work for a pharmaceutical company/related health field
- 1 Miscellaneous places that prescriptions are/can be obtained (internet, through government programs, etc)
- **1** Good service at pharmacy/have a good pharmacist
- 2 Other
- 11 No reason
- 2 Don't know
- -- Refused

READ INTRO:

We're going to be asking you some questions about prescription drugs. As you know, prescription drugs are medicines that can ONLY be bought if you have a prescription from a doctor. Prescription drugs do NOT include vitamins, herbal medicines like St. Johns' Wort and ginseng, or medicines you can buy without a prescription, like aspirin.

(ROTATE VERBIAGE IN PARENS)

- 4. Do you think prescription drugs developed over the past 20 years have generally made the lives of people in the US (better), (worse), or haven't they made much difference?
- 5. Would you say a lot (better/worse), or only a little (better/worse)?
- 4/5. Combo Table based on total
 - **73** Better
 - **52** A lot better
 - **19** A little better
 - **10** Worse
 - 7 A lot worse
 - **3** A little worse
 - **14** Haven't made much difference
 - 3 Don't know
 - * Refused

(ROTATE VERBIAGE IN PARENS)

- 6. Do you think prescription drugs developed over the past 20 years have generally made your own life and your family members' lives (better), (worse), or haven't they made much difference?
- 6a. Would you say a lot (better/worse), or only a little (better/worse)?
- 6/6a. Combo Table based on total
 - **63** Better
 - **44** A lot better
 - **18** A little better
 - 4 Worse
 - 3 A lot worse
 - **1** A little worse
 - **31** Haven't made much difference
 - 2 Don't know
 - * Refused

- 7. By researching and developing new drugs, do you think pharmaceutical companies are making more of a contribution to society than most other companies, less of a contribution, or about the same contribution?
 - **26** More of a contribution
 - **14** Less of a contribution
 - **56** About the same
 - 4 Don't know
 - * Refused
- 8. Overall, how confident are you that prescription drugs sold in the United States are safe? Would you say you are very confident, somewhat confident, not too confident, or not at all confident?
 - **27** Very confident
 - **51** Somewhat confident
 - **15** Not too confident
 - **6** Not at all confident
 - Don't know
 - * Refused

(ROTATE VERBIAGE IN PARENS)

- 9. Some drugs sold in the United States are actually manufactured in OTHER COUNTRIES. Do you think these drugs are (SAFER), about as safe, or (LESS safe) than those manufactured in the U.S.?
 - **3** Safer
 - **49** About as safe
 - **41** Less safe
 - **7** Don't know
 - * Refused
- 10. In general, do you think the cost of prescription drugs is reasonable or unreasonable?
 - **18** Reasonable
 - **79** Unreasonable
 - 2 Don't know
 - * Refused
- 11. In general, do you think people in this country pay higher or lower prices than people in Canada, Mexico, and Western Europe pay for the same prescription drug, or do you think they pay about the same amount?
 - **76** Pay higher prices
 - **6** Pay lower prices
 - **10** Pay about the same amount
 - 8 Don't know
 - * Refused

(SCRAMBLE)

12. Next, I'm going to read you some factors that some people say contribute to the price of prescription drugs. For each, I'd like you to tell me if this is a major factor, a minor factor, or not a factor contributing to the price of prescription drugs. First, what about (INSERT)?

			Not a	Don't	
	Major	Minor	reason	know	Refused
a. The cost of medical research	72	22	4	2	*
b. The cost of marketing and advertising	62	29	8	1	
c. Profits made by pharmaceutical companies	79	14	5	2	*
d. The cost of lawsuits against pharmaceutical	56	32	9	3	*
companies					

13. If a doctor recommends an expensive new drug, do you think insurance companies should always pay for it, or should they only pay for the new drug if it has been proven to be more effective than existing treatments?

Based on one half of total (N = 849)

- **38** Insurance companies should pay for it
- **58** They should only pay if it has been proven to be more effective than existing treatments
- 4 Don't know
- * Refused
- 14. When deciding which prescription drugs should be approved for sale in the U.S., do you think the FDA should approve drugs based on whether they are safe and effective only, or do you think new drugs should only be approved if they are proven to be more effective than existing treatments?

Based on one half of total (N = 846)

- **53** FDA should approve drugs based on whether they are safe and effective only
- **44** They should only be approved if they are proven to be more effective than existing treatments
- 3 Don't know
- * Refused
- 15. Do you think prescription drugs do or do not reduce the need for expensive medical procedures and hospitalization?
 - **59** Do reduce the need
 - **32** Do not reduce the need
 - 9 Don't know
 - * Refused

- 16. Do you think prescription drugs do or do not reduce health care costs by preventing illnesses?
 - **56** Do reduce costs
 - **38** Do not reduce costs
 - **5** Don't know
 - * Refused

(SCRAMBLE)

17. How big a role do you think each of the following play in researching and developing new prescription drugs? First, what about (INSERT)? Do they play a major role, a minor role, or no role in researching new drugs? Next, what about (INSERT?)

			No	Don't	
	Major	Minor	role	know	Refused
a. Universities	60	31	4	5	*
b. The federal government	49	39	9	4	*
c. Non-profit or charity organizations	24	15	18	6	*
d. For-profit pharmaceutical companies	75	19	3	3	*

(SCRAMBLE 1-4 IN SAME ORDER AS Q.17)

- 18. Who do you think SHOULD be primarily responsible for developing new drugs?
 - **28** For-profit pharmaceutical companies
 - **11** Non-profit or charity organizations
 - **27** Universities
 - **16** The federal government
 - * (Vol.) Other
 - 13 (Vol.) Some combination of these
 - * (Vol.) None of these
 - **3** Don't know
 - * Refused

(SCRAMBLE 1-3)

19. There are some serious medical conditions for which new prescription drugs could potentially make a big difference and save lives, but these conditions affect a relatively small number of people. Who do you think should be responsible for making sure research is conducted on drugs for these conditions – (READ LIST)?

Based on one half of total (N = 846)

- **27** Pharmaceutical companies
- **48** The federal government
- **17** Non-profit or charity organizations
- 1 (Vol.) Other
- **5** (Vol.) Some combination of these
- 2 Don't know
- * Refused

(SCRAMBLE 1-3)

20. There are some serious medical conditions for which new prescription drugs could potentially make a big difference and save lives, but these conditions mainly affect people in poorer countries around the world who cannot afford to pay a lot for drugs. Who do you think should be responsible for making sure research is conducted on drugs for these conditions – (READ LIST)?

Based on one half of total (N = 849)

- **19** Pharmaceutical companies
- **25** Government agencies
- **42** International non-profit or charity organizations
- 1 (Vol.) Other
- **9** (Vol.) Some combination of these
- 3 Don't know
- * Refused

(SCRAMBLE. ALWAYS ASK ITEM c LAST)

21. I'd like your opinion of current government regulation of prescription drugs in some different areas. First, how about (INSERT)? Is there too much regulation in this area, not as much as there should be, or about the right amount of regulation?

1/08	Too much		About the right amount of regulation	Don't know	Refused
a. Making sure prescription drugs are safe for people to use	8	44	47	2	*
 Making sure that statements about benefits and possible side effects made in advertisements for prescription drugs are not misleading 	6	43	48	2	*
c. Limiting the price of prescription drugs	11	64	21	4	*

22. What if you heard that limiting the prices of prescription drugs might lead to LESS research and development of new drugs since drug companies would be making smaller profits. Would you still think there should be more regulation of the prices charged for prescription drugs?

Based on total who think there is not as much regulation as there should be in limiting the price of Rx drugs (N = 1101)

- **75** Yes
- **20** No
- 4 Don't know
- * Refused

21c/22. Combo Table based on total

- **64** There is not as much regulation as there should be in limiting the price of Rx drugs
- Still should be more regulation of the prices even if it might lead to less research
- Should not be more regulation of the prices if it might lead to less research
- 3 Don't know/refused
- **11** There is too much regulation in limiting the price of Rx drugs
- There is about the right amount of regulation in limiting the price of Rx drugs
- 4 Don't know
- * Refused

(ROTATE VERBIAGE IN PARENS)

- 23. In general, do you think the government moves (too quickly) or (too slowly) to review and approve new prescription drugs, or do you think they take about the right amount of time?
 - **10** Too quickly
 - **52** Too slowly
 - **32** About right
 - 6 Don't know
 - * Refused

Now, on another topic...

(SCRAMBLE)

24. How much do you trust pharmaceutical companies to (INSERT)? Do you trust them a lot, somewhat, not too much, or not at all?

a. Offer reliable information about how well their drugs work	A lot 13	Somewhat 58	Not too much 19	Not at all 10	Don't know 1	Refused *
b. Offer reliable information about side effects and safety of their drugs	21	51	17	10	1	*
c. Develop new, effective drugs	25	55	14	5	1	*
d. Price their products fairly	5	36	31	27	1	*
e. Inform the public quickly when they learn of a safety concern with one of their drugs	15	40	28	16	*	*

(SCRAMBLE)

25. Do you think pharmaceutical companies have too much, too little, or about the right amount of influence on (INSERT)?

			About the		
	Too	Too	right	Don't	
	much	little	amount	know	Refused
a. Which drugs are approved by the FDA	42	17	34	6	*
b. Laws and regulations passed by Congress	50	18	27	5	*
c. Efforts to change the health care system in the U.S.	44	28	24	4	*

- 26. Do you think pharmaceutical companies do enough to test and monitor the safety of their drugs, or not?
 - **55** Yes, do enough
 - 41 No, do not do enough
 - 4 Don't know
 - Refused
- 27. Have you heard of any programs by pharmaceutical companies that allow people who can't afford needed medications to apply for free or discounted drugs, or not?
 - **58** Yes, have heard
 - **42** No, have not heard
 - **1** Don't know
 - -- Refused
- 28. Do you think these programs go far enough or not far enough to help people who can't afford medications they need?

Based on total who have heard of programs by pharmaceutical companies that allow people who can't afford needed medications to apply for free/discounted drugs (N = 1069)

- 23 Far enough
- **65** Not far enough
- **12** Don't know
- * Refused
- 27/28. Combo Table based on total
 - **58** Have heard of programs by pharmaceutical companies that allow people who can't afford needed medications to apply for free/discounted drugs
 - Think programs go far enough far enough to help people
 - **37** Do not think programs go far enough to help people
 - **7** Don't know/refused
 - **42** Have not heard of programs by pharmaceutical companies that allow people who can't afford needed medications to apply for free/discounted drugs
 - **1** Don't know
 - -- Refused

(ROTATE VERBIAGE IN PARENS)

29. Do you think (most pharmaceutical companies act in an ethical way when researching and testing new drugs on people), or do you think (most pharmaceutical companies engage in testing practices that are unethical and put people at risk)?

Based on one half of total (N = 848)

- **62** Most act in an ethical way
- **28** Most engage in testing practices that are unethical and put people at risk
- 10 Don't know
- * Refused

(ROTATE VERBIAGE IN PARENS)

30. Do you think (most pharmaceutical companies act in an ethical way when researching and testing new drugs on animals), or do you think (most pharmaceutical companies engage in animal testing practices that are unethical)?

Based on one half of total (N = 847)

- **56** Most act in an ethical way
- **30** Most engage in animal testing practices that are unethical
- 13 Don't know
- 1 Refused
- 31. In general, do you think pharmaceutical or drug companies make too much profit, not enough profit, or about the right amount of profit?
 - **74** Too much profit
 - 2 Not enough profit
 - 22 About the right amount of profit
 - **2** Don't know
 - * Refused

(ROTATE 1 AND 2)

- 32. Which statement comes closer to your own view?
 - **70** Pharmaceutical companies are too concerned about making profits, and not concerned enough about helping people
 - **28** The balance of concern at pharmaceutical companies between making profits and helping people is about right
 - 2 Don't know
 - * Refused
- 33. Which comes closer to your view?
 - Pharmaceutical companies spend too much money researching "lifestyle" drugs like Viagra, Rogaine, and Botox at the expense of cures for more serious conditions
 - **38** Pharmaceutical companies do a good job providing products that people want, including lifestyle drugs, and this doesn't affect research on cures for other conditions
 - 6 Don't know
 - * Refused
- 34. Have you seen or heard any advertisements for prescription drugs, or not?
 - 91 Yes, have
 - **9** No, have not
 - * Don't know
 - -- Refused

(ROTATE VERBIAGE IN PARENS)

- 35. On balance, do you think prescription drug advertising is mostly a (good) thing, or mostly a (bad) thing?
 - **53** Mostly a good thing
 - **40** Mostly a bad thing
 - 4 (Vol.) Neither/both
 - 2 Don't know
 - * Refused

(SCRAMBLE ITEMS)

36. We'd like you to rate the job these advertisements for prescription medicines generally do in telling you about each of the following. What about (INSERT)? (INTERVIEWER READ FIRST TIME, THEN AS NECESSARY: Do these advertisements do an excellent job, a good job, only a fair job, or poor job of telling you about this?)

					Don't	
	Excellent	Good	Only fair	Poor	know	Refused
a. The potential benefits you might experience	12	44	34	9	1	*
b. The potential side effects you might experience	9	36	34	19	2	*
c. What condition or disease the drug is designed to	10	44	34	11	1	*
treat						

- 37. As a result of seeing an ad for a prescription medicine, have you ever talked with a doctor about the specific medicine you saw or heard advertised, or not?
 - 32 Yes, have
 - 68 No, have not
 - -- Don't know
 - -- Refused
- 38. When you talked to your doctor about a prescription medicine you saw advertised please tell me if your doctor did any of the following. Did your doctor (INSERT)?

Based on total who have ever talked with a doctor about specific medicine they've seen/heard advertised (N = 547)

			Don't	
	Yes	No	know	Refused
a. Give you the prescription drug you asked about	44	53	2	*
b. Recommend a different prescription drug	54	44	2	
c. Recommend an over-the-counter drug	30	69	1	*
d. Recommend that you make changes in your behavior	57	43	*	
or lifestyle				

37/38. Combo Table based on total

- 32 Have ever talked with a doctor about specific medicine you've seen/heard advertised
- **14** Doctor gave you the Rx drug you asked about
- **17** Doctor recommended a different prescription drug
- **9** Doctor recommended an over-the-counter drug
- Doctor recommended that you make changes in your behavior or lifestyle
- 68 Have never talked with a doctor about specific medicine you've seen/heard advertised
- -- Don't know
- -- Refused

(SCRAMBLE ITEMS)

(FOR ITEMS a-d, ASK Q.39 AND Q.39a IN A SERIES FOR EACH Q.39 = 1)

39. I'm going to read you some statements some people have made about prescription drug advertising. For each, I'd like you to tell me if you agree or disagree with this statement. First, what about (INSERT)? Do you agree or disagree?

	Agree	Disagree	Don't know	Refused
 a. The cost of advertisements makes prescription drugs too expensive 	77	22	2	
 b. Ads for prescription drugs encourage people to take medicine they don't need 	66	33	1	*
c. Many prescription drug ads are too sexually explicit	46	53	1	*
d. There are too many prescription drug ads on television	68	31	2	*
e. Prescription drug ads educate people about available	67	31	1	*
treatments and encourage them to get help for medical conditions they might not have been aware				

39a. Does this bother you a lot, a little, or not at all?

Based on total who agree that...

N = 1309	A lot 54	A little 36	Not at all 10	Don't know *	Refused
1132	51	36	14	*	
831 1173	44 40	39 42	17 18	*

39a/39aa. Combo Table based on total

- 77 Agree that the cost of advertisements make Rx drugs too expensive
- **41** Bothers a lot
- **28** Bothers a little
- **7** Does not bother at all
- **22** Disagree that the cost of advertisements make Rx drugs too expensive
- 2 Don't know
- -- Refused

39b/39ab.Combo Table based on total

- Agree that ads for Rx drugs encourage people to take medicine they don't need
- **34** Bothers a lot
- **24** Bothers a little
- **9** Does not bother at all
- **33** Disagree that ads for Rx drugs encourage people to take medicine they don't' need
- 1 Don't know
- Refused

39c/39ac. Combo Table based on total

- **46** Agree that many Rx drug ads are too sexually explicit
- **20** Bothers a lot
- **18** Bothers a little
- **8** Does not bother at all
- 53 Disagree that many Rx drug ads are too sexually explicit
- 1 Don't know
- * Refused

39d/39ad.Combo Table based on total

- **68** Agree that there are too many Rx drug ads on television
- **27** Bothers a lot
- **29** Bothers a little
- **12** Does not bother at all
- **31** Disagree that there are too many Rx drug ads on television
- 2 Don't know
- * Refused

(ROTATE 1-2)

- 40. Which comes closer to your view: Advertisements for prescription drugs to treat mental health conditions like depression and anxiety...?
 - Are mostly good because they help improve understanding of these conditions so people don't feel ashamed to have them and are more likely to ask their doctor for treatment
 - **36** Are mostly bad because they encourage people who don't have serious mental health conditions to think they need treatment
 - 4 Don't know
 - Refused

(ROTATE VERBIAGE IN PARENS)

41. Do you think pharmaceutical companies spend (too much), (too little), or about the right amount of money on advertising to patients?

Based on one half of total (N = 849)

- **60** Too much
- **6** Too little
- **30** About the right amount
- 4 Don't know
- Refused

(ROTATE VERBIAGE IN PARENS)

42. Do you think pharmaceutical companies spend (too much), (too little), or about the right amount of money on marketing their products to doctors?

Based on one half of total (N = 846)

- **51** Too much
- **7** Too little
- **35** About the right amount
- **7** Don't know
- -- Refused

- 43. Do you currently take any prescription medicine or not?
 - 54 Yes, take
 - 45 No, do not take
 - Don't know
 - * Refused
- 44. Do you take prescription medicine daily, weekly, monthly, or less often than monthly?

Based on total who currently take Rx medicine (N = 1029)

- 92 Daily
- 3 Weekly
- 2 Monthly
- 3 Less often than monthly
- Don't know
- Refused
- Combo Table based on total 43/44.
 - 54 Currently take Rx medicine
 - **50** Take daily
 - 2 Take weekly
 - 1 Take monthly
 - 2 Take less often than monthly
 - 45 Do not currently take Rx medicine
 - Don't know
 - Refused
- 45. How many different prescription drugs do you take?

Based on total who currently take Rx medicine (N = 1029)

- 28 1
- 20 2
- 3 16
- 35 4 or more
- Don't know
- 1 Refused
- 43/45. Combo table based on total
 - 54 Currently take Rx drugs 1
 - **15**
 - 11 2
 - 9 3
 - 19 4 or more
 - 45 Do not currently take Rx drugs
 - Don't know

Additional copies of this publication (#7747) are available on the Kaiser Family Foundation's website at www.kff.org.

The Kaiser Family Foundation is a non-profit, private operating foundation dedicated to providing information and analysis on health care issues to policymakers, the media, the health care community and the general public.

The Foundation is not associated with Kaiser Permanente or Kaiser Industries.

Harvard School of Public Health is dedicated to advancing the public's health through learning, discovery, and communication. More than 300 faculty members are engaged in teaching and training the 800-plus student body in a broad spectrum of disciplines crucial to the health and well being of individuals and populations around the world. Programs and projects range from the molecular biology of AIDS vaccines to the epidemiology of cancer; from risk analysis to violence prevention; from maternal and children's health to quality of care measurement; from health care management to international health and human rights.
