Wyoming	278	140	138	0

Source: Urban Institute estimates based on data from CMS (Form 64).

Note: Does not include administrative costs, accounting adjustments, or the U.S. Territories. Total Medicaid spending including these additional items was \$258.2 billion in FFY 2002. Figures may not sum to totals due to rounding.

\* Tables 2 and 3 provide more detail on which services are included under "acute" and "long-term" care. "DSH" refers to disproportionate share hospital payments.

\*\* Of \$2.9 billion in prepaid/managed care expenditures reported by Arizona, 68% was assumed to pay for acute care and 32% was assumed to pay for long-term care. These proportions are based on data from the "2002 AHCCCS Overview" (<http://www.ahcccs.state.az.us/Publications/overview/2002/contents.asp>).

Source: Urban Institute estimates based on data from CMS (Form 64).

\* "Other Services" include dental, other practitioners, abortion, sterilization, transportation, physical and occupational therapy, services for individuals with speech, hearing and language disorders, programs of all-inclusive care for the elderly (PACE), dentures, eyeglasses, prosthetic devices, other diagnostic and rehabilitative services, and other uncategorized services.

\*\* "Payments to Medicare" are primarily premiums paid by Medicaid for Medicare enrollees. Medicaid may also pay Medicare cost-sharing for some individuals, but these amounts typically should be reported as payments for other services (e.g., inpatient hospital).

\*\*\* "Managed Care & Health Plans" includes payments to health maintenance organizations (HMOs), prepaid health plans (PHPs), and other health plans, as well as primary care case management (PCCM) fees.

\*\*\*\* The managed care expenditures shown for Arizona exclude approximately \$950 million that we estimated was used to pay for long-term care services.

\* "Other Services" include dental, other practitioners, abortion, sterilization, transportation, physical and occupational therapy, services for individuals with speech, hearing and language disorders, programs of all-inclusive care for the elderly (PACE), dentures, eyeglasses, prosthetic devices, other diagnostic and rehabilitative services, and other uncategorized services.

\*\* "Payments to Medicare" are primarily premiums paid by Medicaid for Medicare enrollees. Medicaid may also pay Medicare cost-sharing for some individuals, but these amounts typically should be reported as payments for other services (e.g., inpatient hospital).

\*\*\* "Managed Care & Health Plans" includes payments to health maintenance organizations (HMOs), prepaid health plans (PHPs), and other health plans, as well as primary care case management (PCCM) fees.

\* "ICF-MR" stands for intermediate care facility for the mentally retarded.

\*\* "Mental Health Facilities" include inpatient psychiatric services for individuals age 21 and under, and other mental health facilities for people age 65 and older.

\*\*\* "Home Health & Personal Care" includes standard home health services, personal care, targeted case management, hospice, home and community-based care for the functionally disabled elderly, and services provided under home and community-based services waivers.

\*\*\*\* Long-term care expenditures shown for Arizona include approximately \$950 million in payments to managed care organizations that we estimated to be used for long-term care services. We allocated these expenditures among the services shown based on nationwide patterns of spending for long-term care services.
