Table 12 Notes

1. This column indicates whether a state has elected to establish and operate its own State-based Marketplace (SBM), establish a State-based Marketplace with federal support, use the Federally-facilitated Marketplace (FFM), or establish a Marketplace in partnership with the federal government (Partnership). States running an SBM are responsible for performing all Marketplace functions, except for three SBM states (NV, NM, OR) that rely on the FFM information technology (IT) platform for eligibility determinations. In a Federally-facilitated Marketplace (FFM), the US Department of Health and Human Services (HHS) conducts all Marketplace functions. States with a Partnership Marketplace may administer plan management functions, in-person consumer assistance functions, or both, and HHS is responsible for the remaining Marketplace functions.

2. This column indicates whether states using the FFM IT platform for eligibility determinations (including FFM, Partnership, and Federally-supported SBM states) have elected to allow the FFM to make assessments or determinations of Medicaid/CHIP eligibility for MAGI-based groups. In assessment states, applicants’ accounts must be transferred to the state Medicaid/CHIP agency for a final determination. In determination states, the FFM makes a final Medicaid/CHIP eligibility determination and transfers the account to the state Medicaid/CHIP agency for enrollment. States marked as N/A operate a full SBM.

3. This column indicates whether the state operates a single integrated eligibility determination system for MAGI-based Medicaid and Marketplace coverage. Such integration is possible in the 14 states with a full SBM. States marked as N/A use the FFM for Marketplace eligibility and enrollment functions.

4. This column indicates whether the MAGI-based Medicaid eligibility determination system is used to determine eligibility for at least one other non-health benefit program such as the Supplemental Nutrition Assistance Program (SNAP), cash assistance, or child care subsidies.

5. In California, county-based eligibility systems are integrated with other non-health programs.
