Wyoming	FFM	Determination	Y	Y	

SOURCE: Based on a national survey conducted by the Kaiser Commission on Medicaid and the Uninsured with the Georgetown University Center for Children and Families, 2016.

Table presents rules in effect as of January 1, 2016.

## TABLE 7 NOTES

1. This column indicates whether a state has elected to establish and operate its own State-based Marketplace (SBM), establish a State-based Marketplace with federal support, use the Federally-facilitated Marketplace (FFM), or establish a Marketplace in partnership with the federal government (Partnership). States running a SBM are responsible for performing all Marketplace functions, except for four SBM states (Hawaii, Nevada, New Mexico, and Oregon) that rely on the FFM information technology (IT) platform for application processing and certain eligibility and enrollment activities. In a Federally-facilitated Marketplace (FFM), the US Department of Health and Human Services (HHS) conducts all Marketplace functions. States with a Partnership Marketplace may administer plan management functions, in-person consumer assistance functions, or both, and HHS is responsible for the remaining Marketplace functions.
2. This column indicates whether states using the FFM IT platform for eligibility activities (including FFM, Partnership, and Federally-supported SBM states) have elected to allow the FFM to make assessments or final determinations of Medicaid/CHIP eligibility for MAGI-based groups. In assessment states, applicants' accounts must be transferred to the state Medicaid/CHIP agency for a final determination. In determination states, the FFM makes a final Medicaid/CHIP eligibility determination and transfers the account to the state Medicaid/CHIP agency for enrollment. States marked as N/A do not rely on the FFM for eligibility functions.
3. These columns indicate whether states are receiving and sending electronic accounts transfers from and to the FFM, and whether they are experiencing delays or problems with the account transfer process.
4. Hawaii transitioned from a SBM to a Federally-Supported SBM during 2015. Hawaii did not report whether it is experiencing problems or delays with transfers to and from the FFM because it had not begun transfers at the time of the survey interview.
5. During 2015, Louisiana, North Dakota, and Oregon transitioned to rely on the FFM to make assessments rather than final determinations for Medicaid eligibility, while Alaska transitioned to rely on the FFM to make final determinations rather than assessments.
