

The Future of Global Health Financing: Hope vs. Reality in the Push for Universal Health Coverage

Thursday, April 25, 2019 9:30 – 11:00 a.m.

AGENDA & BIOGRAPHIES

9:00 a.m. **Registration**

9:30 a.m. Welcome

Jen Kates, Kaiser Family Foundation

Introductory Remarks

Joseph Dieleman, Institute for Health Metrics and Evaluation

Keynote Remarks

Tedros Adhanom Ghebreyesus, World Health Organization

Panel Discussion

Chris Collins, Friends of the Global Fight

J. Stephen Morrison, Center for Strategic and International Studies

Christopher J.L. Murray, Institute for Health Metrics and Evaluation

Loyce Pace, Global Health Council

Jen Kates, Kaiser Family Foundation (moderator)

Audience Q&A

11:00 a.m. Adjourn

Jen Kates

Dr. Jen Kates is Vice President and Director of Global Health & HIV Policy at the Kaiser Family Foundation, where she oversees the Foundation's policy analysis and research focused on the U.S. government's role in global health and on the global and domestic HIV epidemics. Widely regarded as an expert in the field, she regularly publishes and presents on global health and HIV policy issues and is particularly known for her work analyzing donor government investments in global health; assessing and mapping the U.S. government's global health architecture, programs, and funding; and tracking and analyzing major U.S. HIV programs and financing, and key trends in the HIV epidemic, an area she has been working in for twenty-five years. Prior to joining the Foundation in 1998, Dr. Kates was a Senior Associate with The Lewin Group, a health care consulting firm, where she focused on HIV policy, strategic planning/health systems analysis, and health care for vulnerable populations. Among other prior positions, she directed the Office of Lesbian, Gay, and Bisexual Concerns at Princeton University. Dr. Kates serves on numerous federal and private sector advisory committees on global health and HIV issues. Currently, she is a member of the CDC/HRSA Advisory Committee on HIV, Viral Hepatitis and STD Prevention and Treatment (CHACHSPT), is an Alternate Board Member of the Global Fund to Fight AIDS, Tuberculosis and Malaria, and serves on PEPFAR's Scientific Advisory Board. She recently served on the Institute of Medicine's (IOM) Congressionally-mandated evaluation of PEPFAR, and on two IOM study committees commissioned by the White House to inform the implementation of the National HIV/AIDS Strategy. Dr. Kates received her Ph.D. in Health Policy from George Washington University, where she is also a lecturer. She is also a lecturer at the Johns Hopkins School of Advanced International Studies. She holds a Bachelor's degree from Dartmouth College, a Master's degree in Public Affairs from Princeton University's Woodrow Wilson School of Public and International Affairs and a Master's degree in Political Science from the University of Massachusetts.

Joseph Dieleman

Dr. Dieleman, an Assistant Professor at the University of Washington, leads the Resource Tracking team at the Institute for Health Metrics and Evaluation. In this capacity he directs research tracking and analyzing of development assistance for health, health expenditure by disease, and government health spending. This research assess health spending across the globe, in 195 countries, and also with focus on health care spending in the US. He is a research affiliate at the Program for Health Economics and Outcomes Methodology and at the Center for Statistics and Social Science, both at the University of Washington. Dr. Dieleman holds a PhD in Economics from the University of Washington and an undergraduate degree, also in Economics, from Calvin College in Grand Rapids, Michigan.

Tedros Adhanom Ghebreyesus

Dr. Tedros Adhanom Ghebreyesus was elected as WHO Director-General for a five-year term by WHO Member States at the Seventieth World Health Assembly in May 2017. He is the first WHO Director-General to have been elected from multiple candidates by the World Health Assembly, and is the first person from the WHO African Region to serve as WHO's chief technical and administrative officer. Immediately after taking office on 1 July 2017 Dr. Tedros outlined five key priorities for the Organization: universal health coverage; health emergencies; women's, children's and adolescents' health; health impacts of climate and environmental change; and a transformed WHO. Prior to his election as WHO Director-General, Dr. Tedros served as Ethiopia's Minister of Foreign Affairs from 2012–2016. In this role he led efforts to negotiate the Addis Ababa Action Agenda, in which 193 countries committed to the financing necessary to achieve the Sustainable Development Goals. Dr. Tedros served as Ethiopia's Minister of Health from 2005–2012, where he led a comprehensive reform of the country's health system. All roads lead to universal health coverage for Dr. Tedros, and he has demonstrated what it takes to expand access to health care with limited resources. The transformation he led as Ethiopia's Minister of Health improved access to health care for millions of people. Under his leadership Ethiopia invested in critical health infrastructure, expanded its health workforce, and developed innovative health financing

mechanisms. Beyond Ethiopia, Dr. Tedros' global leadership on malaria, HIV/AIDS, and maternal and child health has been immensely impactful. He was elected as Chair of the Global Fund to Fight AIDS, Tuberculosis, and Malaria Board in 2009, and previously served as Chair of the Roll Back Malaria Partnership Board, and Co-chair of the Partnership for Maternal, Newborn and Child Health Board. Born in the city of Asmara, Eritrea, Dr. Tedros holds a Doctorate of Philosophy (PhD) in Community Health from the University of Nottingham and a Master of Science (MSc) in Immunology of Infectious Diseases from the University of London. Dr. Tedros is globally recognized as a health scholar, researcher, and diplomat with first-hand experience in research, operations, and leadership in emergency responses to epidemics. Throughout his career Dr. Tedros has published numerous articles in prominent scientific journals, and received awards and recognition from across the globe. He received the Decoration of the Order of Serbian Flag in 2016, and was awarded the Jimmy and Rosalynn Carter Humanitarian Award in recognition of his contributions to the field of public health in 2011.

Chris Collins

Chris Collins is President at Friends of the Global Fight Against AIDS, Tuberculosis and Malaria, where he leads Friends' efforts to educate and engage U.S. decision makers on the lifesaving work of the Global Fund to Fight AIDS, Tuberculosis and Malaria and its effort to end these three epidemics. Previously, as Chief of the Community Mobilization Division at UNAIDS, Chris helped make the case for investment in civil society as an essential part of the AIDS response. As Vice President and Director of Public Policy at amfAR, the Foundation for AIDS Research, Chris defended global AIDS research and program funding and worked to advance domestic HIV policy and global key populations programming. Chris also helped drive the creation of the first comprehensive U.S. National HIV/AIDS Strategy; helped develop and managed the International Treatment Preparedness Coalition (ITPC) Missing the Target series of reports on global HIV treatment scale up; and co-founded and served as Executive Director at AVAC, a global HIV research and prevention advocacy group. As appropriations staff to Rep. Nancy Pelosi (D-CA) in the 1990s, Chris designed the first legislation to provide incentives for development and delivery of vaccines against HIV, TB and malaria. He holds a master's degree in public policy from Harvard University.

J. Stephen Morrison

J. Stephen Morrison is senior vice president at the Center for Strategic and International Studies (CSIS) and director of its Global Health Policy Center. Dr. Morrison writes widely, has directed several high-level commissions, and is a frequent commentator on U.S. foreign policy, global health, Africa, and foreign assistance. He served in the Clinton administration, as committee staff in the House of Representatives, and taught for 12 years at the Johns Hopkins School of Advanced International Studies. He holds a Ph.D. in political science from the University of Wisconsin and is a magna cum laude graduate of Yale College.

Christopher J.L. Murray

Professor Murray's career has focused on improving health for everyone worldwide by improving health evidence. A physician and health economist, his work has led to the development of a range of new methods and empirical studies to strengthen health measurement, analyze the performance of public health and medical care systems, and assess the cost-effectiveness of health technologies. IHME provides rigorous and comparable measurement of the world's most important health problems and evaluates the strategies used to address them. Before founding IHME, Murray served as Executive Director, Evidence and Information for Policy Cluster at the World Health Organization, Director, Harvard Initiative for Global Health and Harvard Center for Population and Development Studies, and Richard Saltonstall Professor of Public Policy at the Harvard School of Public Health. Dr. Murray is an elected

member of the National Academy of Medicine (NAM) and 2018 co-recipient of the John Dirks Canada Gairdner Global Health Award.

Loyce Pace

Loyce Pace is Global Health Council's President and Executive Director. Ms. Pace comes to the role having held leadership positions in global policy and strategic partnerships at LIVESTRONG Foundation and the American Cancer Society. While Director of Regional Programs for the American Cancer Society's Department of Global Health, she was responsible for developing their first capacity-building and advocacy initiatives in Southeast Asia and sub-Saharan Africa. Additionally, she has worked with Physicians for Human Rights and also served as an International Development Fellow for Catholic Relief Services, implementing community outreach projects throughout Senegal and The Gambia. Ms. Pace holds a Bachelor's degree with Honors in Human Biology from Stanford University and a Master's degree in Public Health from Johns Hopkins Bloomberg School of Public Health, where she was inducted into the Delta Omega Society. She is currently a member of the board at InterAction as well as United Nations Association (National Capital Area), and previously served on the Phillips Academy (Andover) Alumni Council. She speaks several languages, including Spanish as well as some French and Japanese, and has lived in Africa, Asia, and Europe. Loyce is based in Washington, DC.
