LEGISLATIVE COUNSEL'S DIGEST

SB 961, as amended, Hernandez. ~~Health care service plans.~~ *Individual health care coverage.*

Existing law, the federal Patient Protection and Affordable Care Act (PPACA), enacts various health care coverage market reforms that take effect January 1, 2014. Among other things, PPACA requires each health insurance issuer that offers health insurance coverage in the individual or group market in a state to accept every employer and individual in the state that applies for that coverage and to renew that coverage at the option of the plan sponsor or the individual. PPACA

prohibits a group health plan and a health insurance issuer offering group or individual health insurance coverage from imposing any preexisting condition exclusion with respect to that plan or coverage. PPACA allows the premium rate charge by a health insurance issuer offering small group or individual coverage to vary only by family composition, rating area, age, and tobacco use, as specified, and prohibits discrimination against individuals based on health status.

Existing law, the Knox-Keene Health Care Service Plan Act of 1975, provides for the ~~licensing~~ *licensure* and regulation of health care service plans by the Department of Managed Health Care and makes a willful violation of the act a crime. Existing law *also* provides for the ~~licensing and~~ regulation of health insurers by the Insurance Commissioner. ~~The California Health Benefit Exchange is governed by a board and the board is required to facilitate enrollment of qualified individuals in qualified health plans.~~ *Existing law requires plans and insurers offering coverage in the individual market to offer coverage for a child subject to specified requirements.*

This bill would prohibit a health care service plan contract or health insurance policy issued, amended, or renewed on or after January 1, 2014, from imposing any preexisting condition provision upon any individual, except as specified. The bill would require a plan or insurer, on and after January 1, 2014, to offer, market, and sell all of the plan's health benefit plans that are sold in the individual market to all individuals in each service area in which the plan provides or arranges for the provision of health care services, but would require plans and insurers to limit enrollment to specified open enrollment and special enrollment periods. Commencing January 1, 2014, the bill would prohibit a plan or insurer from conditioning the issuance or offering of individual health benefit plans on any health status-related factor, as specified, and would authorize plans and insurers to use only age, geographic region, and family size for purposes of establishing rates for individual health benefit plans. The bill would enact other related provisions and make related conforming changes.

Because a willful violation of the bill's requirements with respect to health care service plans would be a crime, the bill would impose a state-mandated local program.

~~Existing federal law, the federal Patient Protection and Affordable Care Act, commencing on and after January 1, 2014, requires each health insurance issuer that offers health insurance coverage in the individual or group market in a state to accept every employer and~~

~~individual in the state that applies for that coverage and requires the issuer to renew that coverage. Existing federal law, commencing on and after January 1, 2014, prohibits discriminatory premium rates charged by a health insurance issuer for health insurance coverage offered in the individual or small group market, as specified, and also prohibits discrimination against individuals based on health status. Existing federal law, commencing on and after January 1, 2014, except as otherwise specified, prohibits a group health plan and a health insurance issuer offering group or individual health insurance coverage from imposing any preexisting condition exclusion with respect to that plan or coverage.~~

~~This bill would, to the extent requried by federal law, require a health care service plan contract to comply with these federal requirements. The bill would require the department to consult and coordinate with the commissioner and the Exchange in carrying out these provisions.~~

~~Because a willful violation of these provisions would constitute a crime, the bill would impose a state-mandated local program.~~

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Vote: majority. Appropriation: no. Fiscal committee: yes. State-mandated local program: yes.

The people of the State of California do enact as follows:

1 *SECTION 1. Section 1357.51 of the Health and Safety Code*
2 *is amended to read:*
3 1357.51. (a) No plan contract that covers three or more
4 enrollees shall exclude coverage for any individual on the basis
5 of a preexisting condition provision for a period greater than six
6 months following the individual's effective date of coverage.
7 Preexisting condition provisions contained in plan contracts may
8 relate only to conditions for which medical advice, diagnosis, care,
9 or treatment, including use of prescription drugs, was recommended
10 or received from a licensed health practitioner during the six
11 months immediately preceding the effective date of coverage.
12 (b) No plan contract that covers one or two individuals shall
13 exclude coverage on the basis of a preexisting condition provision

1 for a period greater than 12 months following the individual's
2 effective date of coverage, nor shall the plan limit or exclude
3 coverage for a specific enrollee by type of illness, treatment,
4 medical condition, or accident, except for satisfaction of a
5 preexisting condition clause pursuant to this article. Preexisting
6 condition provisions contained in plan contracts may relate only
7 to conditions for which medical advice, diagnosis, care, or
8 treatment, including use of prescription drugs, was recommended
9 or received from a licensed health practitioner during the 12 months
10 immediately preceding the effective date of coverage.
11 (c) (1) Notwithstanding subdivision (a), a plan contract for
12 group coverage shall not impose any preexisting condition
13 provision upon any child under 19 years of age. *A plan contract*
14 *for group coverage issued, amended, or renewed on or after*
15 *January 1, 2014, shall not impose any preexisting condition*
16 *provision upon any individual.*
17 (2) Notwithstanding subdivision (b), a plan contract for
18 individual coverage that is not a grandfathered health plan within
19 the meaning of Section 1251 of the federal Patient Protection and
20 Affordable Care Act (P.L. 111-148) shall not impose any
21 preexisting condition provision upon any child under 19 years of
22 age. *A plan contract for individual coverage that is issued,*
23 *amended, or renewed on or after January 1, 2014, and that is not*
24 *a grandfathered health plan within the meaning of Section 1251*
25 *of the federal Patient Protection and Affordable Care Act (Public*
26 *Law 111-148) shall not impose any preexisting condition provision*
27 *upon any individual.*
28 (d) A plan that does not utilize a preexisting condition provision
29 may impose a waiting or affiliation period not to exceed 60 days,
30 before the coverage issued subject to this article shall become
31 effective. During the waiting or affiliation period, the plan is not
32 required to provide health care services and no premium shall be
33 charged to the subscriber or enrollee.
34 (e) A plan that does not utilize a preexisting condition provision
35 in plan contracts that cover one or two individuals may impose a
36 contract provision excluding coverage for waivered conditions.
37 No plan may exclude coverage on the basis of a waivered condition
38 for a period greater than 12 months following the individual's
39 effective date of coverage. A waivered condition provision
40 contained in plan contracts may relate only to conditions for which

medical advice, diagnosis, care, or treatment, including use of prescription drugs, was recommended or received from a licensed health practitioner during the 12 months immediately preceding the effective date of coverage.

(f) In determining whether a preexisting condition provision, a waivered condition provision, or a waiting or affiliation period applies to any enrollee, a plan shall credit the time the enrollee was covered under creditable coverage, provided that the enrollee becomes eligible for coverage under the succeeding plan contract within 62 days of termination of prior coverage, exclusive of any waiting or affiliation period, and applies for coverage under the succeeding plan within the applicable enrollment period. A plan shall also credit any time that an eligible employee must wait before enrolling in the plan, including any postenrollment or employer-imposed waiting or affiliation period.

However, if a person's employment has ended, the availability of health coverage offered through employment or sponsored by an employer has terminated, or an employer's contribution toward health coverage has terminated, a plan shall credit the time the person was covered under creditable coverage if the person becomes eligible for health coverage offered through employment or sponsored by an employer within 180 days, exclusive of any waiting or affiliation period, and applies for coverage under the succeeding plan contract within the applicable enrollment period.

(g) No plan shall exclude late enrollees from coverage for more than 12 months from the date of the late enrollee's application for coverage. No plan shall require any premium or other periodic charge to be paid by or on behalf of a late enrollee during the period of exclusion from coverage permitted by this subdivision.

(h) A health care service plan issuing group coverage may not impose a preexisting condition exclusion upon a condition relating to benefits for pregnancy or maternity care.

(i) An individual's period of creditable coverage shall be certified pursuant to subsection (e) of Section 2701 of Title XXVII of the federal Public Health Service Act (42 U.S.C. Sec. 300gg(e)).

SEC. 2. The heading of Article 11.7 (commencing with Section 1399.825) of Chapter 2.2 of Division 2 of the Health and Safety Code is amended to read:

Article 11.7. ~~Individual~~ *Child* Access to Health Care Coverage

SEC. 3. Section 1399.829 of the Health and Safety Code is amended to read:

1399.829. (a) A health care service plan may use the following characteristics of an eligible child for purposes of establishing the rate of the plan contract for that child, where consistent with federal regulations under PPACA: age, geographic region, and family composition, plus the health care service plan contract selected by the child or the responsible party for the child.

(b) From the effective date of this article to December 31, 2013, inclusive, rates for a child applying for coverage shall be subject to the following limitations:

(2) The rate for a child shall be subject to a 20-percent surcharge above the highest allowable rate on a child applying for coverage who is not a late enrollee and who failed to maintain coverage with any health care service plan or health insurer for the 90-day period prior to the date of the child's application. The surcharge shall apply for the 12-month period following the effective date of the child's coverage.

(3) If expressly permitted under PPACA and any rules, regulations, or guidance issued pursuant to that act, a health care service plan may rate a child based on health status during any period other than an open enrollment period if the child is not a late enrollee.

(4) If expressly permitted under PPACA and any rules, regulations, or guidance issued pursuant to that act, a health care service plan may condition an offer or acceptance of coverage on any preexisting condition or other health status-related factor for a period other than an open enrollment period and for a child who is not a late enrollee.

(c) For any individual health care service plan contract issued, sold, or renewed prior to December 31, 2013, the health plan shall provide to a child or responsible party for a child a notice that states the following:

"Please consider your options carefully before failing to maintain or renew coverage for a child for whom you are responsible. If you attempt to obtain new individual coverage for that child, the

premium for the same coverage may be higher than the premium you pay now."

(d) A child who applied for coverage between September 23, 2010, and the end of the initial open enrollment period shall be deemed to have maintained coverage during that period.

~~(e) Effective January 1, 2014, except for individual grandfathered health plan coverage, the rate for any child shall be identical to the standard risk rate.~~

~~(f)~~

(e) Health care service plans may require documentation from applicants relating to their coverage history.

employer groups until the plan notifies the director that it has the ability to deliver services to individuals, and certifies to the director that from the date of the notice it will enroll all individuals requesting coverage in that area from the plan.

(3) Nothing in this article shall be construed to limit the director's authority to develop and implement a plan of rehabilitation for a health care service plan whose financial viability or organizational and administrative capacity has become impaired.

1399.859. The director may require a health care service plan to discontinue the offering of individual health benefit plans or acceptance of applications from any individual upon a determination by the director that the plan does not have sufficient financial viability or organizational and administrative capacity to ensure the delivery of health care services to its enrollees. In determining whether the conditions of this section have been met, the director shall consider, but not be limited to, the plan's compliance with the requirements of Section 1367, Article 6 (commencing with Section 1375.1), and the rules adopted under those provisions.

SEC. 6. Section 10198.7 of the Insurance Code is amended to read:

provision contained in health benefit plans may relate only to conditions for which medical advice, diagnosis, care, or treatment, including use of prescription drugs, was recommended or received from a licensed health practitioner during the 12 months immediately preceding the effective date of coverage.

(f) In determining whether a preexisting condition provision, a waivered condition provision, or a waiting or affiliation period applies to any person, all health benefit plans shall credit the time the person was covered under creditable coverage, provided the person becomes eligible for coverage under the succeeding health benefit plan within 62 days of termination of prior coverage, exclusive of any waiting or affiliation period, and applies for coverage under the succeeding plan within the applicable enrollment period. A health benefit plan shall also credit any time an eligible employee must wait before enrolling in the health benefit plan, including any affiliation or employer-imposed waiting period. However, if a person's employment has ended, the availability of health coverage offered through employment or sponsored by an employer has terminated or, an employer's contribution toward health coverage has terminated, a carrier shall credit the time the person was covered under creditable coverage if the person becomes eligible for health coverage offered through employment or sponsored by an employer within 180 days, exclusive of any waiting or affiliation period, and applies for coverage under the succeeding plan within the applicable enrollment period.

(g) No health benefit plan that covers three or more persons and that is issued, renewed, or written by any insurer, nonprofit hospital service plan, self-insured employee welfare benefit plan, fraternal benefits society, or any other entity may exclude late enrollees from coverage for more than 12 months from the date of the late enrollee's application for coverage. No insurer, nonprofit hospital service plan, self-insured employee welfare benefit plan, fraternal benefits society, or any other entity shall require any premium or other periodic charge to be paid by or on behalf of a late enrollee during the period of exclusion from coverage permitted by this subdivision.

(h) An individual's period of creditable coverage shall be certified pursuant to subdivision (e) of Section 2701 of Title XXVII of the federal Public Health Services Act, 42 U.S.C. Sec. 300gg(e).

(j) Any entity providing aggregate or specific stop loss coverage or any other assumption of risk with reference to a health benefit plan shall provide that the plan meets all requirements of this article concerning waiting periods, preexisting condition provisions, and late enrollees.

(b) From the effective date of this chapter to December 31, 2013, inclusive, rates for a child applying for coverage shall be subject to the following limitations:

The surcharge shall apply for the 12-month period following the effective date of the child's coverage.

(3) If expressly permitted under PPACA and any rules, regulations, or guidance issued pursuant to that act, a carrier may rate a child based on health status during any period other than an open enrollment period if the child is not a late enrollee.

(4) If expressly permitted under PPACA and any rules, regulations, or guidance issued pursuant to that act, a carrier may condition an offer or acceptance of coverage on any preexisting condition or other health status-related factor for a period other than an open enrollment period and for a child who is not a late enrollee.

(c) For any individual health benefit plan issued, sold, or renewed prior to December 31, 2013, the carrier shall provide to a child or responsible party for a child a notice that states the following:

"Please consider your options carefully before failing to maintain or renew coverage for a child for whom you are responsible. If you attempt to obtain new individual coverage for that child, the premium for the same coverage may be higher than the premium you pay now."

(d) A child who applied for coverage between September 23, 2010, and the end of the initial enrollment period shall be deemed to have maintained coverage during that period.

(2) A health insurer that cannot offer an individual health benefit plan to individuals because it is lacking in sufficient health care delivery resources within a service area or a portion of a service area may not offer a health benefit plan in the area in which the insurer is not offering coverage to individuals to new employer groups until the insurer notifies the commissioner that it has the ability to deliver services to individuals, and certifies to the commissioner that from the date of the notice it will enroll all individuals requesting coverage in that area from the insurer.

(3) Nothing in this chapter shall be construed to limit the commissioner's authority to develop and implement a plan of rehabilitation for a health insurer whose financial viability or organizational and administrative capacity has become impaired.

10965.13. The commissioner may require a health insurer to discontinue the offering of individual health benefit plans or acceptance of applications from any individual upon a determination by the commissioner that the insurer does not have sufficient financial viability or organizational and administrative capacity to ensure the delivery of health care services to its insureds.
