An act to repeal Chapter 13 (commencing with Section 12693.90) of Part 6.2 of Division 2 of the Insurance Code, and to add Section 14005.271 to the Welfare and Institutions Code, relating to child health.

LEGISLATIVE COUNSEL’S DIGEST

AB 357, as amended, Pan. Medi-Cal Children’s Health Advisory Panel.

Existing law requires the state to implement and administer various child health and disease prevention programs. Existing law establishes the Healthy Families Advisory Board, a 15-member advisory panel appointed by the Managed Risk Medical Insurance Board. Existing law provides for the transition of children from the Healthy Families Program to Medi-Cal, including the transfer of the Healthy Families Advisory Board to the State Department of Health Care Services.

This bill would repeal the Healthy Families Advisory Board and instead rename and recast the board as the Medi-Cal Children’s Health Advisory Panel, an independent, statewide advisory body composed of 19 members charged with advising the State Department of Health Care Services on matters relevant to all children enrolled in Medi-Cal and
their families, as specified. The bill would require that panel members, except as otherwise specified, be appointed by the department. The bill would specify the powers and duties of the panel and the department in this regard and would require that the department submit, on or before January 1, 2018, and every 5 years thereafter, a report to the Legislature on the advisory panel’s accomplishments, effectiveness, efficiency, and any recommendations for improving the ability of the advisory panel to fulfill its purpose.

The people of the State of California do enact as follows:

SECTION 1. The Legislature finds and declares all of the following:

(a) The health and well-being of California’s children should be among the state’s top priorities, and it is imperative that every child in California has meaningful health coverage with benefits that support healthy growth and development.

(b) Children’s health coverage should encompass more than just treatment of diseases and illnesses, but also cover services and care to promote healthy development and well-being, identify and intervene in problems early on, and prevent chronic disease.

(c) All children should receive care that meets recognized standards of practice.

(d) For the first time in history, the current generation of children is likely to be less healthy than their parents and live shorter lives.

(e) The incidences and types of chronic disease in children have both increased and changed dramatically over the past four decades. One in five children has a mental health problem, and the number of overweight children has tripled for preschoolers and adolescents and quadrupled for children 6 to 11 years of age, inclusive.

(f) In 2013, California moved over 750,000 children who had previously been enrolled in Healthy Families, California’s Children’s Health Insurance program, into Medi-Cal, California’s Medicaid program.

(g) Medi-Cal now provides health coverage for roughly 5 million children, approximately one-half of all California children.

(h) Children eligible for Medi-Cal, including children with chronic medical conditions and infectious diseases eligible for
California Children’s Services, foster youth and former foster youth up to 26 years of age, and children from medically underserved ethnic and geographic populations, are often those who experience the greatest challenges in accessing a variety of the high-quality services they need.

(i) In authorizing the Healthy Families transition, the Legislature authorized the transfer of the Healthy Families Advisory Panel to the State Department of Health Care Services, which oversees Medi-Cal.

(j) The Healthy Families Advisory Panel was a 15-member panel of stakeholders, including parents of children enrolled in Healthy Families, that advised the Managed Risk Medical Insurance Board on all policies, regulations, operations, and implementation of the Healthy Families Program since the program’s inception in 1998, made recommendations that helped improve the quality of care for children in Healthy Families, and served as an important venue for parents of enrollees, active providers, and other experts to discuss ways to improve the program.

(k) The modern epidemics facing children today have lifelong consequences and present significant costs to the economy. The failure to ensure the health of our children enrolled in Medi-Cal may jeopardize their ability to function effectively as adults and for our state to remain strong and competitive in our global society.

SEC. 2. Chapter 13 (commencing with Section 12693.90) of Part 6.2 of Division 2 of the Insurance Code is repealed.

SEC. 3. Section 14005.271 is added to the Welfare and Institutions Code, immediately following Section 14005.27, to read:
